NOTES ON NEWS OF THE DAY.

UNDER the low Democratic tariff of 1846 a laboring man could earn a calico dress for his wife in five days, and have one day's wages left to feed his family for a week. Wages were then 50 cents a day and calico 25 cents a yard.

THREE hundred icebergs were passed by the steamship Colina between Glasgow and Quebec on her last trip. Have these melting monsters in the Gulf stream had any effect in producing the intermittent deluges of the last three months?

LEGITIMATE government has paid to the United States minister \$7,500 in compensation for the seizure and detention of the steamer Ozama. About how much would have been paid if Bayard had remained at the head of the State Department?

THE only member of the Cabinet left in Washington is Secretary Rusk of the Agricultural Department. He returned from New York yesterday and relieved Secretary Noble, who had been looking after his Department. Noble at once left for Richfield Springs.

GEO. MAHONE is organizing leagues of colored Republicans throughout Virginia. These organizations are effected principally through the churches, and almost every colored man is enrolled. Under Mahone's leadership they will get in their votes and have them counted as cast.

DAKOTA and Minnesota have raised 85,000,000 bushels of wheat this year, and it is believed that the account will be 90,000,000 when it is all thrashed and measured. This is a bushel and a half for every man, woman and child in the United States. And there are a dozen other great wheat-growing states.

THE Susquehanna rolling mills at Columbia, Pa., have raised the wages of puddlers from \$3.50 to \$3.85 per day, and those of other workmen in proportion. In Bethlehem, Pa., an increase from \$3.25 to \$3.85 was made a few days ago. The old conditions of labor under Republican rule are coming back.

THERE are 127 savings banks in the state of New York, including three in process of liquidation. These own depositors \$536,417,974, an average of about \$90 for each member of the population, and paid \$8,979,689 interest on deposits last year. The banks have 1,389,907 open accounts, and received \$98,682,530 in deposits during the year.

SENATOR VOORHEES of Indiana, in a recent speech, advised the Democracy to "take the Titanic spirit of Plutocracy by the throat and strangle it to death." Mr. Voorhees had just heard that Wm. L. Scott, the Erie plutocrat and Grover Cleveland's friend, was the owner of the mines in Illinois where the families of 3,000 locked-out miners are starving to death.

THE five murderers in the Tombs who are to be hanged on the 23d inst. were measured for new suits yesterday, and will receive them on Tuesday, when the death watch is set over them. All are resigned to their fate except Giblin, who would like a new trial and electricity. The names of the others are Packerham, Lewis, Carroll and Nolan. Every one of them killed a woman.

THERE are 40,000 Chinamen in San Francisco now, and in spite of the anti-Chinese law their numbers are increasing. Every ship brings from ten to sixty. They are re-shipped at San Francisco for Mazatlan and Panama without landing, but when they get into Mexico they return, and are smuggled over the border without difficulty. The phrase, "The Chinese must go," appears to mean that they must go to the United States by a circuitous route.

RICHARD WHITING was some years ago granted a pension of \$24 a month, which was subsequently increased to \$50 a month, for nervous prostration and mental infirmity. A Democratic administration came in and promptly cut him down to \$8 per month. The case has just been reopened, and his pension raised to \$72 a month, with arrears from the date of his discharge in 1865. He will at once receive the comfortable sum of \$12,000 and a generous income for life. The republic has recovered from its four years' attack of ingratitude towards its defenders.

A GRAND ARMY POST was mustered in at Fort Sumter yesterday, and was named in honor of Major Robert Anderson, the gallant defender of the fort. The members are made up of soldiers who enlisted from almost every state of the North. It is the first Post ever organized in South Carolina. There was no flagstaff on the fort, but the members hoisted a flag on the spot where Major Anderson hauled down his colors in 1861 and ran them up again in 1865 in the presence of Henry Ward Beecher. The Commander of the new Post is James O. Ladd, Captain 35th U. S. C. T.

PRESIDENT HARRISON has appointed Miss Clara C. Matthews to be Postmistress at Hazelhurst, Miss. The young lady was the daughter of J. P. (Print.) Matthews, who was murdered at the polls five years ago by a man named Wheeler, who had been selected to do the bloody deed at a Democratic convention. After the murder another meeting of Democrats was held, at which the murder was approved by resolution. J. L. Meade, who presided at this meeting, was appointed Postmaster two months afterwards. Political murders at the South are not being upheld by the present administration, despite Mr. Cleveland's example.

DURING the fiscal year ending June 30, 1888, there were handled in the Second Division of the Railway Mail Service 794,357,047 pieces of mail matter, and 107,525 errors of all sorts were made. During the year ending June 30, 1889, the number of pieces handled was 837,734,997, and the errors were 97,701. During the latter year the increase of business was 5 per cent and the decrease of errors 9 per cent. This result amply justifies the re-appointment of Superintendent Jackson, who was removed by President Cleveland to make room for an active and hungry politician who had not had an hour's experience in the mail service.

FATAL RAILROAD ACCIDENT.

Four Cars Telescoped by a Fast Night Express.

GENERAL SPORTING NEWS.

Notes of the Turf, the Diamond And Other Pastimes.

BROWN-SEQUARD'S ELIXIR.

Several Astonishing Cures Reported Out in the West.

A GIRL'S ADVENTURE.

FOUR CARS TELESCOPED BY EXPRESS.

One Passenger Killed and Eight Others Badly Injured.

By Telegram to The Freeman.

CHARLOTTE, N. Y., Aug. 10.—A collision occurred near Forest Lawn on the R. W. & O. Railroad at about 8 o'clock this morning. The night express, bound west for Niagara Falls, ran into the Rochester train, which was backing down, telescoping four cars of the train, and killing one and badly injuring eight others. The person killed was Miss Ella Perrin, of St. Johns, Mich., aged 23. Her father and mother were on the train. Mr. Perrin was bruised and injured internally. Mrs. Perrin had her collar bone broken and is otherwise injured. Andrew Tiffany, engineer of the steamer Hazelton, of Oswego, injured internally, died in short time after accident. Mrs. Lewis Moore, of Gratiwick, N. Y., right leg broken. Lowell Brown, of Sherman, N. Y., right leg crushed to the knee, will be amputated. Left foot badly crushed. He will probably recover. Brown is a salesman.

LATER.—John Jay, of Oswego, has since died at the City Hospital from the result of his injuries. Others who were hurt are Miss Sarah M. Sweet, West-Wolcott, inj. injured. Frederick Bell, Cheboygan, Mich., compound fracture of left leg. Miss Louise Moore, Landstown, Canada, right leg broken.

ABOUT THE "BROWN-SEQUARD ELIXIR."

Alleged Cures Reported—What Certain Physicians Have Said.

By Telegram to The Freeman.

INDIANAPOLIS, Ind., Aug. 10.—Since an apparently successful experiment with "Brown-Sequard's Elixir" upon Noah Clark last week, 25 enfeebled and infirm old men in Indianapolis have applied to physicians for injections of the substance, and all are now undergoing the first effects of it with varying manifestations. Four patients of Dr. Woodburn, who were given injections of 60 drops, have been doing things which they have heretofore been unable to do for 20 years. One man read a newspaper in twilight without spectacles, which he had not done before for 10 years. A commercial traveler declared that it afforded him relief from chronic spinal trouble. Dr. Punnam, who experimented upon Clark with such success, yesterday administered the injection to eight persons, six of whom are prominent in business and adverse to having their names made public. Each was given 30 drops of the elixir. Dr. W. B. Pletcher, former Superintendent of the Indiana Insane Hospital, is also making experiments, and reports gratifying results, except in one case where it had no perceptible effect. Many persons have been given the injection at dispensaries and among the doctors of the city. The City elixir has become the rage. Many of the physicians, however, publicly denounce it as a humbug and refuse to have anything to do with the experiments that are being made.

BUSINESS MIXED WITH PLEASURE.

President Harrison, Who is at Bar Harbor, Makes Appointments.

By Telegram to The Freeman.

BAR HARBOR, Me., Aug. 10.—President Harrison has made the following appointments: Samuel F. Phillips, of North-Carolina, Commissioner on the part of the United States under the Venezuela and United States treaty concerning the adjustment of claims. Charles R. Pope, of Missouri, Consul at Toronto. Richard G. Lay, of the District of Columbia, Consul General at Ottawa. The United States steamer Dispatch reached here this morning with Secretary Tracy on board, and an hour later the Secretary, his daughter, Mrs. Wilmerding, Lieutenant and Mrs. Munson and Captain Cowles called upon the President. The afternoon was spent on the Sappho by the President and his Secretary of State.

Enjoying Her Outing.

By Telegram to The Freeman.

NANTUCKET, Mass., Aug. 10.—Mrs. Harrison, wife of the President, passed a quiet yesterday. She visited several stores and made purchases, her identity, however, not being discovered by the shopkeepers. Her sister, Mrs. Scott Lord, has improved rapidly. To-day Mrs. Harrison rode to the end of the island. She enjoyed the view from the bluff and extended her ride to the village of Siasconsette.

To Consider a Proposition.

By Telegram to The Freeman.

ALBANY, Aug. 10.—The Commissioners of the Land Office will hold a special meeting in Rochester on Wednesday forenoon, to consider the proposition of the City of Rochester to open certain streets through the grounds of the State Industrial School at Rochester.

A Tragedy in Chicago.

By Telegram to The Freeman.

CHICAGO, Aug. 10.—Christian Harder, a well-to-do German, shot his wife dead last night and then committed suicide. The tragedy took place on the street, after an altercation. Domestic infidelity was the cause. Both had been married twice.

Attached by Creditors.

By Telegram to The Freeman.

PORTSMOUTH, N. H., Aug. 10.—John O. Downs & Company, who conduct the largest meat and fish business in this city, were today attached by out-of-town creditors. Liabilities unknown.

The Labrador Fisheries.

By Telegram to The Freeman.

ST. JOHNS, N. F., Aug. 10.—Unfavorable reports have been received from vessels engaged in the Labrador fisheries.

A Verdict for Defendant.

By Cable to The Freeman.

LONDON, Aug. 10.—In the suit of Higgins against Alice Woodhall a verdict has been given for the defendant.

SPORTS OF THE DAY PARAGRAPHED.

Items of Interest in Relation to Base Ball And Other Matters.

Result of yesterday's ball games: National League: Indianapolis—New York 8, Indianapolis 1. At Chicago—Chicago 9, Boston 0. At Pittsburgh—Pittsburgh 15, Washington 3. American Association: At Kansas City—Kansas City 11, St. Louis 7. At Louisville—Cincinnati 15, Louisville 8. The fight for the championship pennant in the American Association continues. The St. Louis and Brooklyn teams are tie again for first place.

The New-Yorks are now within five paces of the Boston, the leaders in the National League.

Crane has recovered his old time form. The Giants have won the last two games that he pitched in.

The "Giants" are playing about the finest guard of ball ever seen in the stable country. The "Reds" need another pitcher, and need one badly.

J. B. Perry, of Kentucky, has sold to H. C. Wann, of Detroit, Mich., the bay stallion Wheeling Wilkes for \$15,000 and to E. L. Boncher, of Fostoria, Ohio, the crack colt Robert Emmet for \$7,000.

A strong effort is being made by unprincipled men, some of them owners of race-horses, to have the horse Ballston and its owner and trainer reinstated at Saratoga.

John L. Brewer won a shooting match at five pigeons, from William Winstenroth, of Gloucester, Pa., yesterday afternoon. Each shot at 100 pigeons, under London Gun Club rules. Brewer killed 99 of his 100, and Winstenroth 85 out of 90.

The reporters-actors game at the Polo Grounds, New-York City, will take place on Thursday.

Breanan will not go West with the Athletic Club.

THE SARATOGA RACES.

By Telegram to The Freeman.

SARATOGA, Aug. 10.—The weather is clear and track good. Attendance very large. First race, three-quarters of a mile, Violante won, Minnie Palmer second, Teuton third. Time 1:20. Second race, three-fourths mile, Duke of Hamilton won, Brown Princess second, Sunlight third. Time 1:18. Third race, mile and furlong, Kingston won, Lavinia Bell second. Time 2:01. Fourth race, mile and five furlongs, Hanover won, Montrose second, Elkwood third. Time 3:57.

In regard to the Chicago racing trial, the Judges ruled both owners, Corn and Steinhardt, off the course.

GENERAL WHEELING NOTES.

H. H. Ducker, of the Rumbler's Bicycle Club of Buffalo, is, with the support of many wheelmen of the City, making great endeavors to have the wheel meet of '90 held at Niagara Falls, and they intend to shortly make an invitation to the U. S. W. board of officers to that effect. The race roads in the vicinity of that place would make it a very available place for the meet, but as Chicago also wants the meet, it is thought that the wheelmen of both cities will make a hard fight for the honor.

The record for long distance riding has been broken by W. Schmidt of the Long Island wheelmen, who rode 120 miles in one day. This beats the record of George Kruger of the same club who held the club record of 120 miles.

J. H. Draper leads the Pennsylvania Bicycle Club in mileage, with 2,461 miles to his credit, and F. K. Neers second, with 2,401 miles.

W. I. Wilhelm, of Reading, Pa., has been riding since 1880, and has won over 200 medals and other prizes on the path and road.

The Death Record.

H. M. Britton, General Manager of the Rome, Watertown & Ogdensburg Railroad, died at Watertown this morning from heart disease. When he was purchased in 1883 from the Sloan management Mr. Britton became the General Manager. Last November he went to Europe for his health, but received no benefit from the trip. He was 58 years old.

In a report to the State Department received yesterday, Vice Consul Blacklock at Samon enclosed a letter received by him from Shirley W. Baker, Premier of Tonga, dated at Nukunola, Tongatabu, June 6, announcing the death on that day of Crown Prince Laifone, which took place at Nafu Vavau.

Colonel H. C. Laughlin, a prominent citizen over 80 years of age, died suddenly at his residence, in Winchester, Va., yesterday. He was a wealthy rear estate owner of Gratton, West Va., and was United States Appraiser under President Buchanan.

Henry Richard, of Union Hill, N. J., an old time journalist, fell at Bergenline-avenue and Jefferson-street, Union Hill, Thursday night and died soon afterward.

Dr. Walter S. Welch, a prominent physician of Franklin, Penn., died at his Ocean Grove cottage, N. J., Thursday night from a complication of diseases.

Judge William F. Bullock died at his son's home, near Shelbyville, Ky., yesterday of general debility. He was 82 years old.

Colonel James H. Smith, United States Army, retired, died suddenly Thursday night from a complication of diseases.

Army and Navy News.

The Second Controller of the Treasury has decided that the cost of fuel to be furnished to the officers of the army by the Quartermaster's Department under the provisions of the act of June 18, 1878, is a proper charge against the appropriation for "regular supplies, Quartermaster's Department," and that the cost of fuel for fuel to officers of the Engineers Corps is therefore, under existing law, not properly chargeable to any appropriation for river and harbor improvements. The Controller holds in effect that fuel used for the personal comfort of officers engaged on public works cannot properly be charged against the appropriation for such work, but must be charged against the appropriation for "regular supplies." This ruling, however, is not any way necessary or incident to the work itself.

The following officers of the Alliance have been placed on waiting orders: Commander George W. Piggan, Lieutenant Commander George E. Ide, Lieutenants Edward B. Barry, W. P. Day and William Brannerseuter, Ensign C. M. Fabs, Surgeon B. F. Rogers, Chief Engineer John A. Scott, Assistant Engineers Kenneth, McAlpin and H. G. Leopold.

First Lieutenant William H. Wheeler, Eleventh Infantry, having been found incapacitated for active duty by the Army Retiring Board, has been ordered to retire to his home and await retirement.

Captain John W. Bean, Fifteenth Infantry, having been found incapacitated for active service by an Army Retiring Board, has been ordered home to await retirement.

Concerning United States Ships.

By Telegram to The Freeman.

SAN FRANCISCO, Aug. 10.—The steamer Australia from Honolulu last night brings news that the United States steamers Nipise and Albatross from Samoa were sighted 15 miles out from Honolulu, August 2, just before the Australia sailed for this port.

Killed by Lightning.

By Telegram to The Freeman.

PIPER CITY, Ill., Aug. 10.—Mrs. N. Preman and her 12-year-old daughter were killed by lightning near here yesterday afternoon as they were coming to town in a storm. A seven-months-old baby in the mother's arms was not injured.

NEWS FROM POINTS FAR AND NEAR.

tidings in Brief That the Telegraph, Cable and Mail Have Brought.

The Major Robert Anderson Post, of Charleston, N. C., was mustered into the Grand Army of the Republic at Fort Sumter yesterday. A. E. Sholes, Senior Vice-Commander, Department of Georgia, presided over the ceremonies. The officers of the new Post are: James O. Ladd, Commander; John Hoiling, Senior Vice-Commander; R. E. Mansfield, Junior Vice-Commander; George Seelers, Adjutant; Isaac H. Daggett, Quartermaster; J. H. Smith, Surgeon; John W. Ingate, Chaplain.

Everything was in readiness at Fort Smith, Ark., for the execution yesterday of "Jack" Spauld and Hill Walker. On Thursday night the President granted Spauld additional respite to August 30, and Judge Parker at once telegraphed the President, asking that Warrant of Respite be issued. The respite was received at 10 o'clock yesterday forenoon.

Chee Gong, a Chinaman, was hanged at Portland, Ore., yesterday, for the murder of Lee Glick, a fellow-countryman, two years ago. He faced death without flinching and made a long speech protesting his innocence and declaring that his conviction was the result of a Chinese conspiracy.

The steamer Van Meter was burned at Lowell, Ohio, on the Muskingum River at an early hour yesterday morning. The Captain, the only person aboard, narrowly escaped with his life. Loss about \$4,000, insured for \$2,000. The boat was in the Lowell and Parkersburg trade.

Two good, stout front teeth prevented a murder yesterday morning in Chicago. Frederick Harvey accused Joseph Sims' wife of theft. Sims attacked Harvey and fired at him. The ball struck Harvey's front teeth, breaking them off, but doing no further damage.

The Farmers' Alliance of Alabama has reiterated its determination to abstain from using jute bagging for cotton bales, and capitalists at Wilmington, N. C., propose to manufacture pine-fibre bagging on a large scale.

The law compelling Delaware school-keepers to remove all artificial screens from their doors and windows went into effect on July 1, and since then the windows of many schools have been washed.

In the North-Dakota Convention the question of railroad taxation has been settled by adopting the section providing that railroad taxes be taxed at not less than a valuation of \$3,000 nor more than \$7,000 per mile.

The Appeal Court has confirmed the sentences imposed upon M. Droulede and M. Laguerre for rioting at Angoulême, in France, and imposed the amount of M. Droulede's fine by 625 francs.

The arbitrators in the wage-dispute at Streator, Ill., have fixed the price at 72 cents per ton. The men wanted 80 cents, and the operators were willing to concede 70 cents.

The twenty-eighth anniversary of the founding of Madison, N. J., was celebrated yesterday by a joint meeting at the fair grounds and a literary entertainment in the evening.

Charles Oberg, 13 years old, while crawling under a circus tent at Cleveland on Wednesday evening, was struck by a showman. The boy died yesterday.

Bathers on the Cape May, N. J., beach—saw a good class of bathing beauties knocked out by boys throwing the ball onto a reckless man.

A man answering the description of Tascotti, the Chicago murderer, has been arrested at Laredo, Tex., and locked up.

Charters for six street railways in Allegheny City, Pa., were issued at the Pennsylvania State Department yesterday.

The steamer Empiria has arrived at Queenstown from New-York.

A Girl's Adventure in the Woods.

By Telegram to The Freeman.

WATERBURY, N. Y., Aug. 10.—A special to the Times from Waterbury, Lewis County, says: Yesterday Giles Morrison and a party from Lowell went to Northville, in the town of Greig, blackberrying. Among the party was a girl named Halsey, aged about 18 years. While looking for berries she was led away from her party and lost her self in the forest. Upon missing her search was instituted and about 30 men were enlisted who made strict search for several hours. She was found at a distance of about 12 miles from where she started. She was alone and alone, and walked four miles in her stocking feet. She passed near an unoccupied lumber camp but was afraid to enter. Just before she was found a deer rushed through the bushes, frightening her, and when the men called she started and ran. She was found at a distance of about 2 o'clock in the morning by Duane Norton and Samuel Smith and taken to Norton's house, about 12 miles distant, reaching there at 6 o'clock. A mile from her feet being swollen she suffered no difficulty. Only for the skill of Messrs. Norton and Smith in trailing her she would undoubtedly have perished, as she was in an unbroken forest.

NOTES ON NEWS OF THE DAY.

UNDER the low Democratic tariff of 1846 a laboring man could earn a calico dress for his wife in five days, and have one day's wages left to feed his family for a week. Wages were then 50 cents a day and calico 25 cents a yard.

THREE hundred icebergs were passed by the steamship Colina between Glasgow and Quebec on her last trip. Have these melting monsters in the Gulf stream had any effect in producing the intermittent deluges of the last three months?

LEGISLATIVE government has paid to the United States minister \$7,500 in compensation for the seizure and detention of the steamer Ozama. About how much would have been paid if Bayard had remained at the head of the State Department?

THE only member of the Cabinet left in Washington is Secretary Tusk of the Agricultural Department. He returned from New York yesterday and relieved Secretary Noble, who had been looking after his Department. Noble at once left for Richfield Springs.

GEN. MAHONE is organizing leagues of colored Republicans throughout Virginia. These organizations are effected principally through the churches, and almost every colored man is enrolled. Under Mahone's leadership they will get in their votes and have them counted as cast.

DAKOTA and Minnesota have raised 85,000,000 bushels of wheat this year, and it is believed that the account will be 90,000,000 when it is all thrashed and measured. This is a bushel and a half for every man, woman and child in the United States. And there are a dozen other great wheat-growing states.

THE Susquehanna rolling mill at Columbia, Pa., have raised the wages of puddlers from \$3.50 to \$3.85 per day, and those of other workmen in proportion. In Bethlehem, Pa., an increase from \$3.25 to \$3.85 was made a few days ago. The old conditions of labor under Republican rule are coming back.

THERE are 127 savings banks in the state of New York, including three in process of liquidation. These owe depositors \$526,417,974, an average of about \$400 for each member of the population, and paid \$8,979,689 interest on deposits last year. The banks have 1,389,907 open accounts, and received \$98,682,530 in deposits during the year.

SENATOR VOORHEES of Indiana, in a recent speech, advised the Democracy to "take the Satanic spirit of Plutocracy by the throat and strangle it to death." Mr. Voorhees had just heard that Wm. L. Scott, the Erie plutocrat and Grover Cleveland's friend, was the owner of the mines in Illinois where the families of 3,000 locked-out miners are starving to death.

THE five murderers in the Tombs who are to be hanged on the 23d inst. were measured for new suits yesterday, and will receive them on Tuesday, when the death watch is set over them. All are resigned to their fate except Giblin, who would like a new trial and electricity. The names of the others are Packenham, Lewis, Carolin and Nolan. Every one of them killed a woman.

THERE are 40,000 Chinamen in San Francisco now, and in spite of the anti-Chinese law their numbers are increasing. Every ship brings from ten to sixty. They are re-shipped at San Francisco for Mazatlan and Panama without landing, but when they get into Mexico they return, and are smuggled over the border without difficulty. They are "The Chinese must go," appears to mean that they must go to the United States by a circuitous route.

RICHARD WHITING was some years ago granted a pension of \$24 a month, which was subsequently increased to \$50 a month, for nervous prostration and mental infirmity. A Democratic administration came in and promptly cut him down to \$5 per month. The case has just been reopened, and his pension raised to \$72 a month, with arrears from the date of his discharge in 1865. He will at once receive the comfortable sum of \$12,000 and a generous income for life. The republic has recovered from its four years' attack of ingratitude towards its defenders.

A GRAND ARMY POST was mustered in at Fort Sumter yesterday, and was named in honor of Major Robert Anderson, the gallant defender of the fort. The members are made up of soldiers who enlisted from almost every state of the North. It is the first Post ever organized in South Carolina. There was no flagstaff on the fort, but the members hoisted a flag on the spot where Major Anderson hauled down his colors in 1861 and ran them up again in 1865 in the presence of Henry Ward Beecher. The Commander of the new Post is James O. Ladd, Captain 35th U. S. C. T.

PRESIDENT HARRISON has appointed Miss Clara C. Matthews to be Postmistress at Hazelhurst, Miss. The young lady was the daughter of J. P. (Print.) Matthews, who was murdered at the polls five years ago by a man named Wheeler, who had been selected to do the bloody deed at a Democratic convention. After the murder another meeting of Democrats was held, at which the murder was approved by resolution. J. L. Meade, who presided at this meeting, was appointed Postmaster two months afterwards. Political murders at the South are not being upheld by the present administration, despite Mr. Cleveland's example.

DURING the fiscal year ending June 30, 1888, there were handled in the Second Division of the Railway Mail Service 794,387,647 pieces of mail matter, and 107,525 errors of all sorts were made. During the year ending June 30, 1889, the number of pieces handled was 897,734,997, and the errors were 97,701. During the latter year the increase of business was 5 per cent and the decrease of errors 9 per cent. This result amply justifies the re-appointment of Superintendent Jackson, who was reappointed by President Cleveland to make room for an active and hungry politician who had not had an hour's experience in the mail service.

FOUR CARS TELESKOPED BY EXPRESS.

One Passenger Killed and Eight Others Badly Injured.

By Telegraph to The Freeman.
CHARLOTTE, N. Y., Aug. 10.—A collision occurred near Forest Lawn on the R. W. & O. Railroad at about 8 o'clock this morning. The night express, bound west for Niagara Falls, ran into the Rochester train, which was backing down, telescoping four cars of the train, and killing one and badly injuring eight others. The person killed was Miss Ella Perrin, of St. Johns, Mich., aged 23. Her father and mother were on the train. Mr. Perrin was bruised and injured internally. Mrs. Perrin had her collar bone broken and is otherwise injured. Andrew Tiffany, engineer of the steamer Hazelton, of Oswego, injured internally, died in short time after accident. Mrs. Lewis Moore, of Gratiot, N. Y., right leg broken. Lowell Brown, of Sherman, N. Y., right leg crushed to the knee, will be amputated. Left foot badly crushed. He will probably recover. Brown is a salesman.

LATER.—John Jay, of Oswego, has since died at the City Hospital from the result of his injuries. Others who were hurt are Miss Sarah M. Sweet, West-Wolcott, hip injured. Frederick Bell, Cheboygan, Mich., compound fracture of left leg. Miss Louise Moore, Landstown, Canada, right leg broken.

ABOUT THE "BROWN-SEQUARD ELIXIR."

Alleged Cures Reported—What Certain Physicians Have Said.

By Telegraph to The Freeman.
INDIANAPOLIS, Ind., Aug. 10.—Since an apparently successful experiment with "Brown-Sequard's Elixir" upon Noah Clark last week, 25 enfeebled and infirm old men in Indianapolis have applied to physicians for injections of the substance, and all are now undergoing the first effects of it with varying manifestations. Four patients of Dr. Woodburn, who were given injections of 60 drops, have been doing things which they have heretofore been unable to do for 20 years. One man read a newspaper in twilight without spectacles, which he had not done before for 10 years. A commercial traveler declared that it afforded him relief from chronic spinal trouble. Dr. Punnam, who experimented upon Clark with such success, yesterday administered the injection to eight persons, six of whom are prominent in business and adverse to having their names made public. Each was given 30 drops of the elixir. Dr. W. B. Plitcher, former Superintendent of the Indiana Insane Hospital, is also making experiments, and reports gratifying results, except in one case where it had no perceptible effect. Many persons have been given the injection at 30 dispensaries and among the decrepit old men of the City the elixir has become the rage. Many of the physicians, however, publicly denounce it as a humbug and refuse to have anything to do with the experiments that are being made.

President Harrison, Who Is at Bar Harbor, Makes Appointments.

By Telegraph to The Freeman.
BAR HARBOR, Me., Aug. 10.—President Harrison has made the following appointments: Samuel F. Phillips, of North Carolina, Commissioner on the part of the United States under the Venezuela and United States treaty concerning the adjustment of claims. Charles R. Pope, of Missouri, Consul at Toronto. Richard G. Lay, of the District of Columbia, Consul General at Ottawa. The United States steamer Dispatch reached here this morning with Secretary Tracy on board, and an hour later the Secretary's daughter, Mrs. Willmerding, Lieutenant and Mrs. Mason and Captain Cowles called upon the President. The afternoon was spent on the Sappho by the President and his Secretary of State.

Enjoying Her Outing.

By Telegraph to The Freeman.
NANTUCKET, Mass., Aug. 10.—Mrs. Harrison, wife of the President, passed a quiet day yesterday. She visited several stores and made purchases, her identity, however, not being discovered by the shopkeepers. Her sister, Mrs. Scott Lord, has improved rapidly. To-day Mrs. Harrison rode to the east end of the island. She enjoyed the view from the bluff and extended her ride to the village of Siasconnet.

GENERAL WHEELING NOTES.

H. H. Ducker, of the Rumbler's Bicycle Club of Buffalo, is, with the support of many wheelmen of the City, making great endeavors to have the wheeling meet of '90 held at Niagara Falls, and they intend to shortly send an invitation to the L. A. W. board of officers to that effect. The fine roads in the vicinity of that place would make it a very available place for the meet, but as Chicago is the only place where it is usual to hold the wheelmen of both cities will make a hard fight for the honor.

The record for long distance riding has been broken by W. Schmidt of the Long Island wheelmen, who rode 130 miles in one day. This beats the record of George Kroger of the same club who held the record of 120 miles.

J. H. Draper leads the Pennsylvania Bicycle Club in mileage, with 2,401 miles to his credit, and F. K. Neers second, with 2,401 miles.

W. I. Wilhelm, of Reading, Pa., has been riding since 1880, and has won over 200 medals and other prizes on the path and road.

The Death Record.

H. M. Britton, General Manager of the Rome, Watertown & Ogdensburg Railroad, died at Oswego, this morning, of heart disease. When the road was purchased in 1883 from the Sloan management Mr. Britton became the General Manager. Last November he went to Europe for his health, but returned to find the road in a bad state of affairs.

In a report to the State Department received yesterday, Vice-Consul Blacklock at Samoa inclosed a letter received by him from Shirley W. Baker, Premier of Tonga, dated at Nukunono, Tonga, June 6, announcing the death on that day of Crown Prince Laifone, which took place at Nafua Vavau.

Colonel H. C. Laughlin, a prominent citizen, over 80 years of age, died suddenly at his residence, in Winchester, Va., yesterday. He was a wealthy real estate owner of Graton, West Va., and was United States Appraiser under President Buchanan.

Henry Richard, of Union Hill, N. J., an old time journalist, fell at Bergantine-avenue and Jefferson-place, Union Hill, on Thursday night and died soon afterwards.

Dr. Walter S. Welch, a prominent physician of Franklin, Penn., died at his Ocean Grove cottage, N. J., Thursday night from a complication of diseases.

Judge William F. Bullock died at his son's home, near Shelbyville, Ky., yesterday of general debility. He was 82 years old.

Colonel James Curry, United States Army, retired, died suddenly Thursday night from a complication of diseases.

Army and Navy News.

The Second Controller of the Treasury has decided that the cost of fuel to be furnished to the officers of the army by the Quartermaster's Department under the provisions of the act of June 18, 1878, is a proper charge against the appropriation for "regular supplies," Quartermaster's Department, and that the cost of fuel for sale to officers of the Engineer Corps is therefore, under existing law, not properly chargeable to any appropriation for river and harbor improvements. The Controller holds in effect that fuel used for the personal comfort of officers engaged on public works cannot properly be charged against the appropriation for such work, but must be charged against the appropriation for "regular supplies." This ruling, however, does not apply in cases where the wood used is in any way necessary or incident to the work itself.

The following officers of the Alliance have been placed on waiting orders: George W. Pigman, Lieutenant-Commander; George E. Ide, Lieutenant-Edward B. Barry, W. P. WATERBURY, N. Y., Aug. 10.—A special to the Times from Tarry, Lewis County, says: Yesterday Gilles Morrison and a party from Lowville went to Nortonville, in the town of Greig, blackberrying. Among the bushes were a number of holes, and about 15 years. While looking for berries she wandered away from her party and lost herself in the forest. Upon missing her search was instituted, and about 300 yards were explored by the lost search for several hours. She was found at a distance of about 12 miles from where she started. She had worn her shoes out and the walked four miles in her stocking feet. She passed near an uncultivated lumber camp but was afraid to enter. Just before she was found a deer rushed through the bushes, frightening her, and when the men called she was so startled and dazed that she refused to answer. She was found about 2 o'clock in the morning by Duane Norton and Samuel Smith and taken to Norton's house, about 12 miles distant, reaching there at 6 o'clock. Aside from

FLACK IS OUT OF TAMMANY.

Sheriff Flack of New York sent a letter of resignation from the office of Grand Sachem of Tammany and from membership in the General Committee to Chairman Cochrane and Secretary Gilroy yesterday. He gives as his reason the scandal that has arisen "in connection with a suit pending in the courts of this city." He says in his letter that he is waiting patiently for his vindication by the courts, but admits that in the meantime he is conscious that he is a rather heavy load for Tammany to carry. Interviews by reporters with Big Chief Croker brought out the fact that he had urged upon Flack the duty of resigning. Mr. Croker said he had conversed with Flack, who, while insisting that he had done no wrong, offered no adequate explanation of the position that he and the others connected with the divorce case stood in. It will be remembered that this same Croker, when the story of the divorce first came out, declared that the proceedings could not affect Flack's public and official relations, as his domestic affairs were matters of his own private concern. And yet within a week Tammany finds it forced by public opinion to cast Flack out. The moral obtuseness that could see no wrong in the maintenance of two domestic establishments and the employment of the highest officials in the city in a conspiracy to obtain a bogus divorce, has been wonderfully quickened by the prodings of the newspapers.

But Flack has not resigned the office of Sheriff, neither is it known that the Governor has taken any action looking to his removal. It was rumored last night that charges had been prepared and signed and were on their way to the Governor. It is not unlikely that some such action will be taken if it has not been already. With Flack out of Tammany his office is not likely to be of much value to the organization as long as he remains in it. Besides, if Hill removes him he will have the appointing of his successor, and thus perhaps be able to turn the office to good political account. There is danger, however, that the sun element, of which Flack is the idol, while Hill is only a convenience, will turn upon the Governor if he removes the Sheriff, and deprive him of the vote that is the source of his strength. The removal of Flack may therefore be considered an unsettled question.

Lawyer Wright, the pretended counsel of Mrs. Flack in the suit for divorce, was interviewed yesterday, and vociferously pleaded the "baby act." He said he had not acted in the case at all, but merely signed the papers as a matter of form, as was the custom in an agreed case. He did this on the assurance of a friend that "the case was perfectly square on every side," but he refused to divulge the name of this friend. He had forgotten all about the act of signing until he saw the news in the papers that Mrs. Flack had obtained a divorce. Mr. Wright admitted that his act was foolish, but it was so common among lawyers in agreed cases that it had a certain sanction. As Mr. Wright is not a Democrat, his invitation to resign from Tammany has not been forwarded.

Flack's resignation is but the beginning of the end. His outraged wife is pushing the case against the conspirators with all the fury of a woman scorned. Her lawyers, the foremost firm in the city, have obtained all the papers in the case, and will not drop it as long as one of the criminals remains unpunished. Additional quarters are likely to be needed at Sing Sing when the case reaches a conclusion.

BLOODY SOUTH CAROLINA.

The state is smeared with blood from the seaboard to the mountains, and there is no telling when the next shot will strike. What are we going to do about it? We need not try to disguise the fact that the administration of justice has fallen into a state of innocent desuetude. The press and the pulpit should speak out now and all the time against the violation of law, and should denounce every miscarriage of justice as a blot upon civilization and an outrage upon humanity.—*Charleston News and Courier.*

This is a statement of the condition of affairs in South Carolina by a pretty conservative paper. The paragraph contains an intimation that the result of the McDow trial has stimulated the murderous spirit, and this may be in some degree truthful. But the McDow fiasco was itself the fruit of a chronic condition, rather than the seed of a new outburst of savagery. The state has been "smeared with blood" ever since the war. Murder has followed murder in quick succession; for a quarter of a century there has been scarcely a week in the history of the state in which there was not a homicide, while wholesale massacres of blacks for political reasons were not only common, but failed to provoke a protest. In Edgefield county alone there were more than twenty murders in a single year, and not one of the criminals was ever brought to punishment. The only visible outcome of the McDow affair is the inspiration of some people to call murder by its right name.

We think a proper respect for human life cannot be safely guaranteed in South Carolina as long as "Hamburg" Butler sits in the United States Senate. He was not a distinguished man or a leading man prior to his election, and was chosen solely on his record as the leader of the Hamburg massacre. Shall South Carolina honor one murderer with a high office and hang another? This sudden outburst of indignation is due to the fact that Dawson, who was murdered by McDow, was a leading Democrat. We shall not hear a word of complaint from South Carolina when the next Republican is shot down.

WHY DEMOCRATS HATE TAMMANY.

Tanner's reratings of pensions are so atrocious in the eyes of Democrats that they continually wonder why he has not broken down the Harrison administration. He has actually put up a few hundred pensions from \$2.50 to \$4 a month. And instead of being brought into disfavor at Washington, it appears that the Harrisons are actually helping him. It is enough to make a Democrat howl and tear his hair, to find a party back in power that dares to discriminate between a Union soldier and a Confederate in the bestowment of favors.

A case of rerating is reported from Canajoharie, for the success of which John H. Starin and Russell Harrison lent a hand. Abram V. Davis was a soldier in the 153d Regiment New York Volunteers, and reached the rank of Major. In one of the engage-

ments he was thrown from his horse and his spine injured. He was laid up for some time, but recovered sufficiently to return and take part in several engagements. At the close of the war he returned to Canajoharie and started a store. But the old trouble returned, and he gave up business and went West. Here he grew worse, so he came back to Canajoharie, and for a time supported himself in the office of Justice of the Peace to which he was elected, aided by a small insurance business. He eventually lost the entire use of his lower limbs and became a helpless cripple. Not until he had reached this condition did he think of a pension. In 1887, through the influence of State Senator Arkell and Congressman George West, a certificate for \$11.25 a month was obtained. The man who granted this niggardly pension was known as the "Physical Wreck," and drew a pension of \$100 a month for the enfeeblement of one arm while he discharged the duties of an office that paid a salary of \$5,000 a year. On his small pension Davis managed to subsist until the administration was changed. Then Senator Arkell again took up his cause, and one day when Russell Harrison was visiting Mr. Arkell his attention was called to the soldier's condition. On returning to Washington he went directly to the Pension Office and laid the matter before Commissioner Tanner. In a few days a special agent of the Department appeared in Canajoharie. Evidence was obtained which satisfied him of the justice of Major Davis's claim, and news has been received that his pension has been raised to \$50 a month, dating from Nov. 7, 1887. The back pay and the increased rate will keep the old veteran out of the Soldiers' Home and make him comfortable for life.

It is now in order for the Democratic press to jump on Tanner, and inform the country that he is using up that precious surplus which the late Mr. Hendricks promised nine years ago to divide among the people if he was elected. Until about ten months ago the Democrats were under the impression that the surplus was being nursed for their sole and exclusive benefit. It calls them to the quick to see it going to the men who fought against the Democratic party in the war.

PUBLIC OPINION.

The Republicans who are being reinstated under this administration are men whom Cleveland should not have removed.—*Buffalo Express.*

Members of the Cabinet generally are away from their posts, but the complicated machinery of government still runs smoothly. Happy that land where the Government does not depend for its stability upon the action of an individual, or even a small number of individuals.—*Brooklyn Standard-Union.*

Four good reasons exist why Democratic papers should at least treat Benjamin Harrison respectfully. In the first place, he is an honest and upright citizen. Secondly, he was a good soldier. Thirdly, he is the President of the United States. Fourthly, he is the most important man in the world to-day.—*Saratogian.*

For the past few days the newspapers have been full of accounts of defalcations, forgeries and breeches of trust by men standing high in the estimation of their fellows. In view of these crimes many are saying in their wrath that all men are liars and rascals. It should be remembered, however, that the honest bank cashiers and trustees are in an overwhelming majority. It is a bad world, but not a wholly bad world.—*Albany Express.*

The *Utica Observer* now intimates that Col. Waterson was joking when he assumed that the Democracy of Kentucky was in such serious straits in the recent campaign. Then Col. Waterson would have learned not to joke on such a subject. One of his philistine guides in politics was Samuel J. Tilden, who decapitated people that failed to whoop up for a certain victory, even in the most desperate emergencies.—*Albany Times.*

Whatever British capitalists may think of the American system of protection for labor and industry from the outside, they evidently appreciate it from the inside. It is hardly probable that such large amounts of British capital would now be seeking investment in this country, if last November's election had resulted in free trade. In that case the English money would have been employed at home, to our detriment rather than advantage.—*Springfield Union.*

At Lansing, Mich., the pastor of the Evangelical church, Rev. Frederick Mayer, bagged \$5,000 in a recent lottery drawing. Mr. Mayer was pleased, but his congregation was displeased, and there is likely to be an early vacancy in the pulpit. To guard against such an event the clergyman has put the \$5,000 in a bank, declaring that he can see nothing sinful in acquiring money in this way. If he had lost he would probably agree with his congregation that gambling in lotteries is very sinful.—*Troy Times.*

It is not at all surprising to learn from the publishers of the "Rise and Fall of the Southern Confederacy" that it has had only a limited sale. Jefferson Davis is, to speak mildly, disliked in the North and not admired in the South. A few of the leaders of the rebellion gained the respect of their foes; the majority of them, however, did not. Their attempt to destroy the Union was far worse than a crime—it was a stupendous political blunder, to which nothing would have been more disastrous than success.—*Providence Journal.*

SPECIAL BUSINESS NOTICES.

THEIR BUSINESS BOOMING.
Probably no one thing has caused such a revival of trade at Van Deusen Bros. & F. J. R. Clark's drug stores as their giving away to their customers so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. BEST IN THE WORLD.

Further Great Cures of Skin Diseases by Cuticura Remedies.

Boy one year and a half old. Face and body in a terrible condition, being covered with sores. Sulphur springs fail. Cured by Cuticura Remedies.

I have used your Cuticura Remedies in two cases where it proved to be successful. The first was in the case of a boy a year and a half old. His face and body were in a terrible condition, the former being completely covered with sores. I took him to the Massachusetts Springs, but he did not improve any. I was then advised to try the Cuticura Remedies, which I did. He took one and a half bottles of Cuticura Resolvent, when his skin was as smooth as could be, and is to-day. I used the Cuticura on his sores and the Cuticura Soap in washing him. He is now five years of age and all right. The other case was a disease of the scalp, which was cured by washing with the Cuticura Soap and rubbing in the Cuticura, one bottle of Cuticura Resolvent being used. They have proved successful in every case where I have advised the use of them. It is surprising how rapidly a child will improve under their treatment. I recommend them for any disease of the skin as being the best in the world. This is my experience, and I am ready to stand by my statement.

An Unbearable Skin Disease Cured.

I have been afflicted since last March with a skin disease the doctors called Eczema. My face was covered with scabs and sores, and the itching and burning were almost unbearable. Seeing your Cuticura Remedies so highly recommended, concluded to give them a trial, using the Cuticura and Cuticura Soap externally, and a Resolvent internally four months. I call myself cured, in gratitude for which I make this public statement.

SANFORD'S RADICAL CURE FOR

CATARRH.

Cure Begins from First Application, and is Rapid, Radical and Permanent.
It is the mucous membrane, that wonderful semi-fluid envelope surrounding the delicate tissues of the air and food passages, that Catarrh makes its stronghold. It enters into the very vitals, and renders life but a long-drawn breath of misery and disease, dulling the sense of hearing, training the system to chronic disease, destroying the faculty of smell, tainting the breath, and killing the refined pleasures of taste. Indisposition, by creeping in from a single cold, and destroying the membrane lining and enveloping the lungs, eating through the delicate coats and causing inflammation, shortens life, and brings on a premature end. Nothing short of total eradication will secure health to the patient, and all advocates are in favor of a radical cure. Sanford's Radical Cure, by Inhalation and by Internal Administration, rarely fails, even when the disease has manifested itself in the most obstinate form, and the disease throughly driven out.

Sanford's Radical Cure for Catarrh

Consists of one bottle of the Radical Cure, one box Catarrhal Solvent and Improved Inhaler, all in one package; price \$1. Ask for Sanford's Radical Cure. Sold every where.
